Going Green Never Felt So Good...Until Now!

2009 Chevy Malibu Hybrid

2009 Chevy Malibu Hybrid

The 2009 Chevy Malibu Hybrid is a vehicle anyone will be proud to own. Not only will you be protecting the environment, you are going to save money on fuel costs. There is quite a buzz about this model of vehicle due to the great reputation that the Chevy Malibu has earned for itself. It is a four cylinder gas engine that works with an electric motor. The 2009 Chevy Malibu Hybrid has changed from a 16 inch to a 17 inch wheel base which means it is even better to handle than before.

What is underneath the hood is quite impressive in many regards. First, you will find a 2.4 liter engine that is quite but also is able to pick up speed at a fairly fast rate. It also has a 36 volt generator. The four speed transmission is designed to shut itself down when the vehicle stops. This means when you push on the brakes the battery will be able to continue

recharging.

On average, this particular model of hybrid gets about 31 mpg on the highway. That is less than other hybrids but still fairly decent. For many consumers, the trade off is going to be the additional space in the 2009 Chevy Malibu Hybrid versus other hybrid vehicles offered. No one wants to feel cramped in their vehicle no matter how much time they will be spending in it.

Having enough storage space is often a concern with a sedan. The 2009 Chevy Malibu Hybrid doesn't disappoint. You will find it offers more of the storage than any other sedan that is offered. For the consumer that wants to protect the environment, save money on fuel, and not have to worry about storage this could be the perfect vehicle to fit that particular lifestyle.

Safety hasn't been compromised in any way with the 2009 Chevy Malibu Hybrid. You will find that it features a five star rating. This means it has the highest safety rating a vehicle can have. When you are on the roads you want to rely on such technology as luck may not always be in your favor. Additional safety features also are going to get you a lower rate on vehicle insurance.

Getting a good value for your dollar is certainly evident with the 2009 Chevy Malibu Hybrid. You will find a very generous warranty that comes with the purchase of this particular vehicle. The warranty covers the entire vehicle for a period of five years or 100,000 miles. The battery pack has an eight year or 100,000 mile warranty on it. Don't forget that you will also be able to take a \$1,500 credit on your income tax return as an incentive for buying a hybrid vehicle.

If you are interested in the 2009 Chevy Malibu Hybrid, contact your local Chevy dealer. There are a limited number of hybrids offered but they can get one ordered for you. Most of them will be on the West Coast so charges can apply to get them delivered to other destinations. You can be sure that they are going to sell fast though so get your order placed for one early.

The retail price starts at about \$25,500 and increases depending on the features you would like to have

depending on the features you would like to have available to you. This makes it one of the most affordable hybrids on the market right now. If you are interested in such a vehicle, then the 2009 Chevy Malibu is certainly worth exploring in more detail. It has a solid reputation as being a sedan that is safe, comfortable, affordable, and has a positive impact on our environment.
